Eid al-Fitr · Tuesday, March 9, 2027*

* Dates follow the Umm al-Qura calendar: the start and end of Ramadan may shift by one day depending on the moon sighting in your country. Each box shows that evening's moon, after iftar.

** Laylat al-Qadr is sought in the odd nights of the last ten days; many observe it on the night of the 26th to the 27th (the evening of Friday, March 5).
